EXPERIENCE LUXURY IN THE WILD

Many of us feel instinctively drawn to particular landscapes. Maybe the swell of the sea, the flow of the river, or the quiet of the forest. They can stimulate a primal response in us; a heightened sense of awe, excitement or calm. Wilderness can take us away from everyday human life and remind us that we are just tiny grains in a vast world. That feeling of humility can make us feel more alive and does wonders for the soul.

Some people, faced with a mountain, have to climb it; faced with water, feel the need to plunge in; or in a desert, yearn to head for the horizon. Others are content to delight in the beauty of their surroundings in gentler ways. However you like to interact with the wild, there is no need to compromise on comfort when it comes to the accommodation.

In this brochure we have hand-picked four superb luxury properties in each of seven wilderness environments around the world. We do not necessarily intend these as standalone destinations – more as a focal point around which to create a fully tailor-made itinerary.

To start planning your perfect luxury adventure, you can either call one of our expert tour consultants on 020 3797 3924, visit CoxandKings.co.uk/tailor-made where you will find an online form on which you can explain your initial ideas, or talk to your travel agent.

has nothing to do with the forest — the forest is
made of life, of light — but the trees moved
with wind and subtle creatures.*
